DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Bear on 04/28/05.

The application has been amended as follows:

- Cancel claims 28, 34, and 64 without prejudice.

Allowable Subject Matter

Claims 22-27, 33, and 57-63 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 22, 33, 57, and 63 have been allowed over the Harter (US4723248) and Maenza et al. (US5494782) prior art because they fail to teach, taken singly or combined, the method of suppressing Q-switching without suppressing cw mode-locked laser pulses. There is not taught or disclosed in the prior art a method for generating cw output in a laser comprising Q-switching the laser, and then

suppressing the Q-switching. In the typical Q-switched laser of the prior art, the addition of the Q-switch causes the laser to operate in a pulse mode, rather than cw mode. Therefore applicant's invention differs from the typical prior art because while Q-switching is included, it is also suppressed so that the laser operates not in the typical pulsed mode but in the cw mode. See Harter (col.4, 1.29-30) and Maenza (col.5, 1.1-2) references, cited herein, which unlike the typical art appear to show a laser that is Q-switched and modelocked. However, there is no suggestion of suppression of the Q-switching.

Claims 23-27 and 58-62 have been found allowable due to their dependency on claims 22 and 57.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
